The Socialist Viewpoint

MILITANT Socialism through active party organization is making considerable headway in Texas. The candidate for governor this Rev. Reddin Andrews: he has been carrying on a strong campaign, having spoken in public nearly every day since March 1, often twice a day. The state headquarters of the Socialist party has had ten other public speakers constantly at work during the summer and fall, propagating Socialist doctrine and organizing adherents of the Socialist creed into a political party.

The Herald today prints the greater part of Mr. Andrews's letter of acceptance as candidate of the Socialist party for governor. It is timely to call attention to certain paragraphs in the letter because of the direct relation they bear to a number of topics of current popular discussion among members of all the other parties.

Especially noteworthy is this representative Socialist's declaration that "the principles of a pure [socialistic] democracy include popular franchise, direct legislation, or the initiative and referendum, and the right of recall." In their extreme form, the initiative and referendum and the recall are essentially Socialistic doctrines, and in most of the American states they will be greatly modified after experience, or else they will go the way of various other much advertised medicines that have been found valueless because they do not reach the real seat of disease.

Abraham Lincoln first made use of the expression, "A government of the people, by the people, and for the people." Lincoln was one of the great leaders of the original Republican party. His doctrines are Republican doctrines and form the fundamental groundwork of the party creed; nevertheless, he has been almost canonized by a large section of the Democrats, and no recognized leader of the Democratic party is more frequently quoted by Democrats in their party declarations and speeches than is this same Abraham Lincoln-all of which goes to show that Lincoln can justly be regarded as a representative American. Wherefore it is of very general interest to know that the candidate of the Socialist party for governor of the state of Texas, quoting the immortal declaration of Lincoln just given, refers to the declaration in these words: "We have been deceived and bamboozled long enough by this specious and mendacious slogan of knaves, politicians and demagogs"; he goes on to say, "The people have nothing to do with the government but to ebey their masters."

The Socialist candidate for governor of Texas refers in his letter of acceptance to "the infamous poll tax, the unreasonable educational qualification, and the villainous money basis of franchise" as being "nothing but the contemptible blasphemous conspiracies, the insidious tricks of plutocracy to disfranchise and suppress the masses." He urges universal suffrage, with apparently the only limitation to be the barring of the insane; and he wants everybody to vote for "every official or manager from the president down to the crossroads postmaster and backwoods teacher, and for every law under which the people are to live." This is the initialive, referendum, and recall in a somewhat extreme phase.

Rev. Mr. Andrews's declarations as Socialist candidate are well worth reading and pondering, for the Socialist propaganda is a factor in our national political life that must be taken more and more into consideration as time passes. The Social-Ist party as a separate militant organization may not be gaining strength to any great extent, but there is no doubt whatever that Socialist ideas are taking hold of both the old parties and are responsible for much of the socalled radicalism that is bringing about some remarkable political changes, amounting in some cases almost to peaceful revolution. The Prohibitionists as a political party have never been able to accomplish much as a separate organization in state or national politics, but they have certainly succeeded in keeping both of the old parties in a stew a good part of the time in many of the states. The Socialist party bids fair to play

Railroad passenger traffic men in the east declare that the greatest westerly movement of the population this country has ever known will take place this winter. What is El Paso going to do to get her share?

much the same sort of a role, and to try to ignore it is merely to play the ostrich.

Returning a Fortune To the State

MRS. EDWARD H. HARRIMAN, widow of the great railroad builder, has given 10,000 acres to the state of New York for park purposes, and promises to give \$1,000,000 in cash to be spent in improvement of the park. This gift, representing more than 1-30th of her entire fortune, is a big benefaction any way you look at it. Mrs. Harriman, like Mrs. Sage, is evidently another nich man's widow anxious to devote her fortune largely to the public benefit.

Such enormous gifts for public purposes are noteworthy not only for the direct benefit they confer on the people at large, but also as demonstrating the change of feeling among persons of great wealth in the direction of taking the public more and more into partnership to administer and enjoy the vast fortunes that have been piled up through the influences of general national advance.

What has become of the ten day stopovers the railroads promised El Paso in return for rigid enforcement of anti-scalping legislation? Would it not be well for the chamber of commerce to look the matter up? Altogether too many people are going through El Paso without stopping, and it appears that the ten day stopover is more or less a myth.

Know What You Are Buying

HE purchaser of newspaper advertising space has an absolute right to know what he is buying. It is not difficult for any advertiser to establish the truth about the circulation of a newspaper in which he is buying space, and no reputable newspaper ever refuses to afford every possible facility to advertisers to learn the truth.

There are no secrets about The Herald's circulation. The Herald has more than double the paid circulation of any other newspaper south of Colorado between San Antonio and Los Angeles, and this paper is ready to prove the truth of this assertion at any time. As to the quality of Herald circulation let each reader judge for himself from circumstances within his own experience.

The Indiana state superintendent of public instruction has inaugurated a statewide spelling contest among the public school children. There will be a series of local contests covering every community in the state; the winning participants will enter county contests, the county winners will take part in district contests, and tinally a state contest, a regular old spelling bee, will decide the awards. Poor spelling is one of the worst vices of the public schools today all over the United States, and the Indiana scheme may result in arousing renewed interest toward improvement.

UNCLE WALT'S Denatured Poem

HE TIME has come for stovepipes, and all the genial wits will get off things so funny we'll laugh till we have fits. The sad and weary husband is pic tured on a chair, with soot upon his forehead, while cusswords fill the air. The worn and stricken housewife is giving good advice, the while her husband begs her to place her head on ice. You've read the old, old story in fifty comic sheets; each budding jester springs it, each Autumn, and re-

peats. 'Tis but a weary fable; it is not true to life; the stovepipe job rejoices your uncle and his wife. It is a glad occasion, a festal day of glee, when all the happy neighbors and friends come in to see. Your uncle takes

a stovepipe and sticks it in the hole, and sings a cheery rondeau that captivates the soul. He fusses with the damper and monkeys with the wire, and all the time he's singing and twanging on his lyre. He tinkers with the elbows, he fiddles with the stove, and chants of valiant lovers who found their Treasure Trove. Alas, such joys are fleeting! The pipes are soon in place, and if a trace of sorrow is on your uncle's face, and if adown his whiskers there rolls a vagrant tear, it's 'cause the stovepipe season don't last throughout the year!

The Spirit Of New York Life

is better to be disturbed by a friendly, be left forever unnoticed.

for three years without once having man safely into her house at speech with any person living beneath flight of stairs to her room. the same roof. The landlord who lives by telephone, is rewarded by calls from age New York manner. a grocer boy with a full basket and an empty tongue, who lives elsewhere. Your washwoman, who lives elsewhere, shows faint signs of being human and conversable, but she is worried and anxious to get home lest an automobile may run over one of her children. Even that taciturn misanthrope, the janitor, lives elsewhere, for he has charge of several houses, like the one in which you live. His views of mankind are depressing and you are glad that he is stingy of speech.

But when you meet persons who live n the next apartment, who are so near that you can hear their voices by day and their footsteps by night, you don't salute them and they give you no greeting. Neither of you wishes to 'intrude" and each is a little afraid the other may be an undesirable acauintance. Some day you may meet n a down town office or at an up town dinner, be formally introduced to each other, frigidly acknowledge the introduction. Perhaps one of you will fainty refer to your having the same address. Probably neither of you will allude to that unimportant fact. After-wards by the ethics of city life it is permissable for you to speak to each other, should you met in the hall.

Was Political Revolution

When the votes were counted it was found that the "off" year election of 1874 had brought about another politrevolution. Less than a decade after the close of the war the Democrats again were in control of the lower house of congress, having 181 members to 107 Republicans and three in dependents.

The Democrats took courage and re solved to make one great effort to gain the presidency. They nominated Samuel J. Tilden on what would now be called an anti-graft platform, they cried out for retrenchment and reform, and they began a great campaign almost two years in advance of the presidential election. The Republicans nominated Rutherford B. Hayes, a dark horse, selected by a combination op-cosed to James G. Blaine, the leading ante-convention aspirant.

Hayes-Tilden Campaign.

The campaign was a white-hot one, and when it was over the Democrats all over the country celebrated a great national victory. But the Republicans claimed the election, despite the popular majority for Tilden. The Republican senate and the Democratic house finally left the question of the disputed returns from several states to an electoral commission. The commission was made up of eight Republicans and seven Democrats and upon every crucial question which came before it the vote was strictly partisan, eight for two factions, one captained by Edwin Hayes and seven for Tilden. By the S. Stanton, Ben Wade and Thad Ste- decision of this commission Hayes vens, which was radical, and the other was elected, receiving 185 electoral under various leadership, but finally votes to 184 for Tilden, coming together under Carl Schurz, B.

The Democrats were furious, Gratz Brown and Horace Greeley. The they were persuaded to submit as attempt to remove Andrew Johnson gracefully as possible. They had carfrom the presidency was unsuccessful, ried the new house and had made gains perhaps, more for the reason that there in the senate. They had not succeeded were Republican senators who did not in placing a Democrat in the white wish to see Ben Wade in the white house, but they had rehabilitated house than because they thought the their organization and there were charges against Johnson were not again two great political parties in the proved. At any rate, Johnson was accountry. In 1878 the Democrats carried quitted just a short time before the house again and captured control Republican national convention which of the senate.
